COLI FOSHAN JINZHU RESIDENCIAL AERA (Completed)

The project is located in Foshan, China, which is a high-rise residential project. I was involved in the design phase from strategic definition to handover. Team member created excellent plan of each flat, so that this project achieved a great success in commercial residential filed.

CM QIANHAI SHIMAO CENTRE (Completed)

The project is located in Shenzhen, China, cooperated with HASSEL (Hong Kong). This project contains three pavilions, each with a form responding to its function and positioning. I took the responsibility of the basement technical drawings. The project won the first prize of Shenzhen Excellent Construction Project Award.

JIANGMEN HESHAN OCEAN WORLD

A theme park contains hotel, water park, retail and leisure area. Base on the local culture, I designed a Modern Chinese-style pedestrian friendly commercial clutch.

GUANGZHOU NAJIN BUSSINESS AERA

This project located in Guangzhou, China. It has an extremely irregular shape of site. A serious block has been made and we created some pavilions to connect each other.

SHENZHEN JUNIOR HIGH SCHOOL (Completed)

The project is located in Shenzhen, China. Shenzhen junior high school has a long history and is very famous. Due to its small site and the highly requirement, an innovative design that we mixed the various functions with the concept of vertical-city was created.

ARCHITECTURAL GRAPHY

I also like to create some hand-painted works when I was free.

Those are the selected architecture-related sketches.
